Subject: Re: File Number

I apologize for the hold up on this--it was me. I spoke with David about this because I thought that you had wanted to add a new series (like 11.0) and needed to check with him first. He thought, as did you apparently, that it should be added to the four series. 4.35 is the next number available in the four series. If you have not objections, Cathy will add that number and make a file. I do think that when appropriate, the docs should be cross filed to the appropriate existing issue file. Do you think this is right?

Subject: File Number

A few weeks ago we discussed having a file number for "wrap up" research memos. I don't see any number in the file plan. Is the number 4.50 acceptable?
