Subject: Re: Assassination Records sent to National Archives and Records Administration
Dear Debra:Sorry for the delay in responding to you. It has been quite busy here. The Scelso testimony is only available through the Archives. Once the documents are released by the Board, they are sent to the Archives. FYI: It is approximately 190 pages long.Again, I apologize for not getting back to you sooner, and I hope this information is helpful to you.Eileen
