Good morning!Yes, I think that list is a very good idea.To:Eileen Sullivan/ARRBcc: From:Cathy Rodriguez/ARRB   Date:11/07/96 09:05:22 AMSubject:three itemsThank you for your FYI email on Tom's report. It helped because a request of jeremy's made a lot more sense after having read your email. So,Thank you.Second thing, I wrote you a post it note, but my handwriting is so sloppy, I wanted to be sure I was clear: Would you please Cc me on all correspondence from Paul Hoch so that I may then file it in the 4.0.6 R&A Follow up file on HOch?Third item: Let me know if you have a better suggestion: I propose, that in order to keep the 4.0.6 R&A Follow up files up to date, and by that I mean containing all correspondence received from these persons, how would it be if I were to supply you with a list of the files in 4.0.6. (These were approximately 20 names). And then alert me that something from one of these 20 or so people has come in so that I can get a copy and file it in there.My point is that I believe we need to devise some type of system to ensure these 4.0.6 files are up to date with correspondence. Let me know what you think. And no hurry. Thanks, and thanks again for the email. Cathy
