**recstat:** CALL REPORT Document's Author: Douglas Horne/ARRB Date Created: 11/15/96 The Players  
Description of the Call Date: 11/15/96 Subject: Doug Horne  
Returned Annette Anderson's Call Summary of the Call: Annette Anderson, in the Pathology Records Department at AFIP, had been assigned by Joyce Manus to return my call of earlier this week. I called her back, and asked her if she would search for any possible records regarding receipt of JFK brain tissue during 1964-65, as a follow-up on the Ken Vrtacnik lead. She told me that her department did not handle any records related to the Medical Museum, where Ken Vrtacnik recalls having seen the brain tissue in 1964-65. She referred me to Mike Rhode, the archivist at the National Museum of Health and Medicine.
