We have already asked for files related to this individual's service while at the JMWAVE station (CIA-12). I think that many of the questions that we might have would be answered by an examination of this file. I would also guess that an examination of his files would also produce additional leads for file requests. The last time we discussed CIA-12 with HRG, they told us that the request was "pending." In my opinion, this line of research could prove to be quite valuable in regards to CIA sponsorship of the DRE, as this agent has stated that he "formed it (the DRE) so that the Agency could pick it up," and that he served as the group's case officer.
