The RIF is all set. We are no longer using the BLK-Assign macro for viewing of RIFS and I think it had that macro run from sometime in the past. You can use the FIX IT Macro, Undo BLK assign and run it on all the Postponement details if this problem occurs again.To:Chet Rhodes/ARRBcc:Kevin Tiernan/ARRB, Bob Skwirot/ARRB, David Marwell/ARRB From:Phil Golrick/ARRB Date:01/17/97 04:32:06 PMSubject:RIF number 124-10181-10343This RIF, in status 40 in reviewtrack, has a large number (approx. 50) of postponement details, most of which are not picked up by hitting the refresh button on the RIF itself. All of the postponement details otherwise seem OK (correct RIF number, in the right "place" in the reviewtrack).Bob showed me how to run the "large document viewing" macro, but this didn't seem to help. Please take a look at this when you get a chance.Thanks.
