Subject:	Re: Report

Body: Thom is out sick today. I have made several minor changes and am prepared to send it out as a draft. As you know, Kermit gave his okay. Henry called and said he thought the Report is extremely good and that he has no changes either substantively or stylistically. I have not heard from the others.To:Jeremycc:Tom From:David Marwell/ARRB   Date:02/17/97 01:32:21 PMSubject:ReportI am attaching my edited version of the report. I have marked with strike-out and redline all of my additions and suggested changes. I think Thom should go through and clean up the inconsistencies in the neeting-by-meeting section (for example, starting on page ten, there are underlined sub-heads). I would like to get a draft to Rich Hertling, Brian Dettelbach, and Joyce Larkin as soon as we are confident that there will be no major substantive changes. Tom Samoluk should be in touch with them if the report can't go out by Tuesday late afternoon.I am sending this to you before having picked up my e-mail to see whether the Board as responded with their comments or whether you or Tom have any additional thoughts.. I will write again after reading my mail.
