Subject: Re: Re[2]: Address

The CD-ROM will be sent overnite on Monday, I had to wait until this evening to pull it out. Have fun. I think it has the standard cd-rom setup.exe program that you run from windows to get it going. I do not want to keep it or load it, but it would be helpful for a presentation that I am making. If it is too much to accomplish, that is okay too. Please advise. JRT _____ Reply Separator

Hopefully, we will have a shorter address soon. One question -- the JFK Assassination software that is on the ARRB system - the one that has the pictures, films etc. -- is that a basic CD Rom or disk package that you have loaded onto the system, or what? Please advise. Thanks. JRT _____ Reply Separator
