**Subject:** Re: Word from Steve Tilley

Jeremy asked me to hold off on sending it out until we establish more accurately how many documents there are going to be in this little exercise. We can't do that until we review each collection, which we should do after Tilley transfers the docs to us. However, we can't even really do that until we have a better idea of what the window is going to be in general (beyond the knowledge that Site R's window is June 1963-January 1964). Joe and I submitted a memo to both you and Jeremy last week with our official recommendation; we haven't had any response yet, so we are kind of in a holding pattern on this. I don't want to get into a position of re-reviewing the same documents three or four times, placing tabs on them and then taking them off again a week later when the window changes again. Joe and I ended up going back last week and "un-tabbing" things we'd spent two days reviewing and tabbing a few weeks before-- that wastes both our time and that of people like Will Kammer. I want to know what the window is for sure before we go through these documents attaching cover sheets to them and getting a count, thus giving us an idea how many documents there will be in the declass session, after which we can send those letters out. And so the circle goes. To: Christopher Barger/ARRBcc: From: Tim Wray/ARRBDate: 03/05/97 01:30:52 PMSubject: Re: Word from Steve TilleySorry, but I've lost track of something. (It's in my head here somewhere, I just can't find it. . .) Where are we on sending out letter to agencies involved asking them to designate representative for this, etc?
