**Subject:** Re: Database info  
Chris can we meet on this again Friday or next week.thanksTo:Chet Rhodes/ARRBcc:Tim Wray/ARRB,  
Joseph Masih/ARRB From:Christopher Barger/ARRB Date:02/06/97 10:15:26 AMSubject:Database  
infoChet, the eight agencies/entities that could potentially have equities in these documents are: Joint Staff,  
OSD, NSC, CIA, State, Army, Navy, Air Force.The database should have fields for: ARRB sequential number;  
originating agency; collection; and "buttons" for each of the agencies which might have equities. (There could  
be all eight, or sometimes just one.) We also need the database to be able to search for each individual  
agency, and print out a sheet with the documents they need to review. For example, rather than look at all  
4,996 documents, the CIA person would look at their sheet and know that they had only to review docs  
#1,4,57,66,89, etc.The persons needing access to this databse are anticipated to be: Tim, Christopher, Joe  
Masih, Cathy, and perhaps David, Jeremy, and maybe Christina.I will be at your disposal to answer questions  
or help in any way.
