**Subject:** Re: HSCA Draft Final Report

Joe: If you did "drop the ball," I suspect it was a golf ball. Hopefully, we can get the report reviewed and released -- relatively soon. At a minimum, some researchers will be interested in it and maybe some media. Brian is being kind enough to fax me your memo on the differences. Thanks. Tom Weather update: Boston dodged three March storms this week. My Prediction: six inches of snow on Easter. We're all lucky we have Brian to clean up after me! As I mentioned to Brian on the phone yesterday, I think I wrote a memo (re: differences between draft and final published report) a long while back. I can't search for it because I don't have access to my old WordPerfect files here in Phoenix, but it should be retrieveable in D.C. (easy for me to say, I know). FYI. I hope that we can move the draft final report, since there has been interest in the research community and maybe some press interest, if there are any interesting differences between it and the final report. Thanks. Tom To: Tom Samoluk/ARRBcc: Joseph Freeman/ARRB From: Brian Rosen/ARRB Date: 03/19/97 10:25:37 AM Subject: HSCA Draft Final Report I have located the HSCA Draft Final Report. Unfortunately, there is no indication that it was ever referred to the CIA or any other agency. The report (the original document) was sitting out of the Security Classified boxes on a shelf in aisle 5-A of the SCIF. Although it was marked for CIA referral, it was not copied and delivered to the CIA in October because Cathy only copied for referral those documents that were tabbed and in one of the relevant boxes. After conferring with Bob, I referred the report to the CIA yesterday and expect it back relatively shortly. I also alerted Kevin to the situation and asked him to review the report for possible FBI equities and referral. If I can be of further assistance, please let me know.
