Subject: Re: Intern Candidate

Yes -- I called him on the afternoon after his interview and told him that, as long as his references checked out, we would like to have him come for the summer. He agreed to fax me a list of references and then asked how soon we would need to know. I told him that we would prefer to know soon, but that he should definitely try to tell us by the end of April. He faxed his references and I called them. His previous employers and professors raved about him. I'll let you know when I hear from him.

I was curious whether or not we made an offer to Randall Ravitz.
