Dear. Ms. Sullivan, (attn. David Marwell or Brian Rosen)Today I received a letter from David Marwell in regard to my work as a photo consultant to the HSCA, asking whether I retained any records relating to my work with the committee. His letter contained no Email reply address, but as a matter of convenience I am replying to your Email address, assuming that you can pass this reply on to him.The answer to his question is that I received no documents of any sort from the Committee. I generated no work for the Committee which I documented. Everything I presented to the Committee resulted from my own private JFK research, and in fact, the Committee failed to return copies many of my materials to me. I still retain all my original research, which is mine and not the Committee*s. However, since the 70s I have developed much new research which is not officially **an assassination record**, but which I would be delighted to share with the AARB under the right circumstances if it would be useful and needed. Examples are my discovery of **Badgeman** in the Moorman photo and my studies of the false defector program which resulted in the name Lee Harvey Oswald being used by a **defector** who later became the patsy in the assassination. These things are extremely important, but are not **official records**. In fact, the Warren Commission failed to even examine the Moorman photo or have her testify.Will you please acknowledge this message, and that it will get to Mr. Marwell or Mr. Rosen, so that I will not have to reply via US
