Subject: Re: President Clinton's response to the Board's July 24, 1996 recommendations

Thank you for your message. I am not sure whether you got a response so I thought I would make sure with another response. The President has been very supportive of our efforts to declassify and release assassination records. The Administration recently recommended that Congress fund the Review Board for an additional year to ensure that we will have the time necessary to fully review all relevant records. In addition, the President has not overturned any of the Board's decisions to release records. Thanks for your support.

Subject: President Clinton's response to the Board's July 24, 1996 recommendations

Sir, First let me say that I am extremely please that this board was convened and is taking the time and energy to review the volumes of documents related to the assassination of President Kennedy for release to the public. Hoping your or your staff have time to respond to this e-mail, I'd like to know if you have received a response from President Clinton with regard to your recent listing of documents recommended for release to the public. Thank you for taking the time to read this and send a response.
