**Subject:** Re: Intern project  
Ron-- as we discussed, Friday morning is my drop dead cutoff time at which I would like to be 100% ready with the projects and thus can spend the day preparing the public room and making last minute arrangements in case Nightline comes. Thus, anything you could get me soonest would be great. However, I understand that there are zillions of other things going on, so if I have to wait until Friday morning, I'll live with it. Thanks. cmbTo: Christopher Barger/ARRBcc: From: Ron Haron/ARRBDate: 06/10/97 12:43:36 PMSubject: Re: Intern projectChris -- If it is okay, give me til tomorrow to look at this and/or write something up. --Ron
