Subject: Re: Processed in Rochester

Thank you for the information, Jim. Yes, please do follow up on this matter and try to obtain names (and possibly even whereabouts) of the two people you referenced who may know something about this matter. If they handled the Zapruder film, we would like to speak with them. Is the film Mr. Zavada referenced the Zapruder film? It was unclear in your e-mail whether this was the Zapruder film, or perhaps some other assassination movie (such as the Nix or Muchmore films).  ASTSubject: Processed in Rochester To: OAS --MAILSERV Open Addressing*** Resending note of 06/12/97 09:57 From: Jim Milch ISD LXJ600 ext. 89400 1/65/RL Subject: Processed in Rochester Thanks for your phone call. I talked with Rollie Zavada on this one and learned that: 1. He has a film from 1963 processed in Rochester; it has an edge print on it indicating this (the letter "R" in a certain place). We did not see this (as we remember) on the films we inspected. We do not know if the Dallas lab had similar edge printing equipment. 2. There is no realistic expectation that any written records from 1963 are still held by Eastman Kodak Company; we have a strict records retention policy. 3. Two key managers of the processing lab in that period (early 60's) are still alive and retired in Rochester. There is some chance that we could get names from them, and track this down. We will do so (gratis) if you feel this is important. Thanks for the information on your present efforts to extend the Board's life. We will be patient.
