Subject: Re: Reply to your HOWZIT!

Hey!!! You are now a part of history! Every e-mail we get is automatically tagged as an "assassination record" and will be saved forever, along with all of our office files, for future study by researchers who want to know "what that Review Board was up to."We are therefore discouraged from using e-mail for personal correspondence (such as this reply)--but for you I will make an exception!GREAT TO HEAR FROM YOU.(By the way, the discussing of "writing books" is discouraged here, and has become a taboo subject, of sorts. Please, no moah da kine talk about silly speculations I had 2.5 years ago before I came to work here!) I hope your visit to Hawaii is as great as it sounds like it will be, and that your parents also enjoy their visit to Washington.The work you and Chris are doing with sand sculpture (?) sounds really interesting.The Review Board has requested of Congress a one-time, one-year extension. We expect it will be granted. (About 99% certain at this point.) If so, we will shut down on 30 SEP 1998, vice 1997. So, its too early to say what I will be doing when I leave here. Knowing that unemployment is right around the corner is pretty scary, though.I think of you, and Bill, and Gaylian and Kathy quite often. Gaylian has written me twice, and I owe her a response.So far I have been fortunate enough to participate in depositions of the 3 autopsy pathologists, the two autopsy photographers, one person in the Navy who developed post-mortem photographs, and interviews of 3 embalmers and 3 Dallas medical personnel from Parkland hospital. Also, study of the Zapruder film and other photographic issues. That part of my job experience has been really neat. Right now, I've been bumped upstairs to a "team leader" slot, and have the pompous title of "Chief Analyst for Military Records."All for now.

Body: Take good care of your baby, and your husband. Great to hear from you. BYE.
