**Subject:** Re: Marty Underwood

I did a quick computer search -- Marty Underwood does not appear to be in any of the now-existing RIFs as a subject, nor is he listed as an HSCA subject. When Jeremy returns on Thursday, let's talk to him and see if he wants to make a request for additional information to request whatever FBI has on him. But, before we do that, you might also ask Ron, when he returns from sick leave, whether he has run across Underwood's name in his review of the Hoover O&C file indices. I'm happy to make a request for the file, if you would want to review it. Just let me know.

According to Vincent Palamar, author of "The Third Alternative," Hoover had a file on Underwood (JFK's advance man). In addition, Underwood told Palamar that Hoover hid the Lee Harvey Oswald file from the Secret Service. Do you have any knowledge of the existence of the Underwood file or how to go about requesting it? I realize you might not have time to follow through before you leave this week, but I appreciate any assistance or leads you could provide. Thanks!
