Subject: Re: HSCA Firearms Issue - C.E. 567

Body:

Your e-mail is fortuitously timed, as I have just returned to Phoenix today after an absence of almost three weeks.To answer your easier question first, I never reached Conzelman. I left numerous voice-mails on his office phone (he's the AA to a Republican congressman, whose name I now forget, but who I think is from Ohio... in any case, I got Conzelman's number from a standard House of Representatives staff directory) but he never got back to me.I'm having a harder time remembering whether Bates ever sent us anything. I have a vague recollection that he did, but that it wasn't anything new or significant. I had a pretty thick file on the Firearms Panel -- which is probably in the file cabinet in Brian/Doug/Christopher's old office along with my other files. If we got something new, I probably would have given it to Noelle/Cathy for a new subject file: HSCA Firearms Panel, or something like that, but I also might have made a copy for my own file.. I'm embarrassed to say I honestly don't recall for sure. I also wrote a longish memo (as opposed to an e-mail) summarizing what I did on the C.E. 567/Firearms Panel (I'm almost positive I did) which I may or may not have updated when/if something from Bates arrived. Since I can't access my old wordperfect files, I can't search for the document for you (again, a copy -- perhaps the most current -- should be in my old file). If there was some way for Chet to send me my old wordperfect files (which I think as a matter of policy he's never done), I'd be happy to look for it.I'm sorry my recollection is so hazy on your second query. Let me know if there's anything else I can do.
