Subject: Re: NSA

Very fine; thank you for your report. I approve of the way you handled the "28 documents" in your memo. Unfortunately, I don't think our previous P.O.C. will be working there anymore...I think his retirement date was August 1. Good luck with the new (and undoubtedly confused) P.O.C. To: Douglas Horne/ARRBcc: Manuel Legaspi/ARRB Date: 08/05/97 08:36:09 AM Subject: NSADear Commander Horne: I plan on calling our NSA poc tmrw. re: administrative issues concerning documents. I have four basic issue areas that I will ask him about: 1. The 85 documents ready for delivery to NARA. One document needs to be referred to the FBI. I will ask him about procedure. One document is still being "considered." I will ask him about procedure. I will ask him about the blue-highlighted copies of documents that we still retain. I will find out if the NSA wants those back or if we should 1) keep the copies for our records, or 2) place them in the burn bag. As stated in an earlier email, I will call Steve Tilley to arrange for the delivery. Tom Lamoluk and Eileen need to be informed (for p.r. purposes) when this delivery takes place. 2. I will ask him about the disk he is supposed to send us that contains the RIF information for four of the 49 documents voted on by the Board in Mar 1997. He had told Christopher that those would be coming sometime this week. 3. I will ask him about the 28 documents that they supposedly had delivered to ARRB in Dec 1996. Christopher checked all of the logs and did not find any record of this delivery ever taking place. 4. I will ask him when their staff would be available for the briefing that was discussed at our last meeting. I will not set up any definite time or date, rather, I will ask him regarding a general time frame so we can check our own schedules for compatibility. END
