Delivery of tickets on 11 August to our officesOn the way home (flight 674) you will need to check in b/c seats are tight.With regard to your question about staying the night of the 14th, if that should become necessary, just call the office and I will contact Sato. Sato will then change the date and flight arrangement. You can go to the counter on 15 August with your ticket dated 14 August, and the airline will honor it, since it's government travel. This information is per Julian at Sato travel. Let me know if there's anything else. Have a good trip. Either National or Dulles airports are fine. Could you also find out what I would need to do to stay over and shift the return ticket to the 15th if that should become necessary. Thanks!
