AMSubject: Your Edited Version of Barnes "Facts About the Materials"E-As you will recall, I asked you to edit  
the Barnes "Facts About the Materials" that went to the Archives with the AP wire copy. You took out his  
section on "Uses," at my suggestion. I was reading it this morning and just thought that I would mention that  
your edited version of Barnes "Facts" is something that we could fax as a supplement to reporters (particularly  
Feinsilber). It may prove to be a handy piece if someone wants more background than is provided in the news  
release.T
