 ASTSubject: [NIC-970905.9471] Modify Registration JFK-ARRB.GOV
 On or about 1-Oct-97 the General Services Administration will assume the administration of the GOV domain. Network Solutions would like to update the GOV registration database before the transfer to the GSA occurs. Please read the attached RFC 2146 which describes eligibility for registration in the GOV domain. If you are not a US Federal Government civilian agency, you should consider registering under another domain, such as COM, NET, ORG, or a country domain. If you determine the domain is no longer needed, just change the "M" in item 0a on the attached form to a "D" and we will remove the domain from the database. Please review the registration information below, make changes as necessary by editing the information on the form and return it to HOSTMASTER@INTERNIC.NET For detailed instructions see: <http://rs.internic.net/help/templates.html> <ftp://rs.internic.net/templates/domain-template.txt> If you need to make changes to a contact already registered, as shown in sections 3, 4, or 5 of the form, use the Contact Template at: <http://rs.internic.net/help/templates.html> <ftp://rs.internic.net/templates/contact-template.txt> If you need to make changes to a host already registered, as shown in sections 7 or 8 of the form, use the Host Template at: <http://rs.internic.net/help/templates.html> <ftp://rs.internic.net/templates/host-template.txt> If you have questions of policy or procedure regarding the GOV domain please contact the GSA directly at REGISTRATION@FED.GOV. Thank you for your help in making this transition smooth and accurate. Regards, InterNIC Registration Services
