Subject: Re: Chet's schedule this week

two things for tomorrow morning:1) documents which come out of fasttrack and go into the consent database, which do not have any information in them aside from the RIF number do not get automatically categorized as "CIA" or "FBI" from the "104" or "124" in the RIF number field. Therefore they don't make it into the composed federal register notice.2) in the fbi not open database, will you create a view that shows 1) the agency file number, 2) the rif number, and 3) the restriction code. Before you do this, I'd like to talk about what I need to do, because you might have some other notions. Thanks, KT
