Subject: Re: Lady Bird Johnson tapes

Additional information- The LBJ Library's Technical Services Division made copies of the tapes that were held in deposit at the Library for Nightline at Mrs. Johnson's request. It is not clear whether the copies have to be returned or not.

Subject: Lady Bird Johnson tapes
Claudia Anderson of the LBJ Library called me back regarding the Lady Bird tapes and the Nightline story. First of all, the diary tapes are Mrs. Johnson's personal property but are held at the Library in a courtesy file only to be released at her consent. The Library only learned in the past couple of days that Nightline was doing this story and did not have any information as to who approached whom first. Claudia stated they are uncertain as to the current status of the tapes and do not yet know whether they will be made available to the public. This is something they are looking into as well.
