Subject:	Re: e-mail
Body:	David had been on the all list so that was the problem.To:Chet Rhodes/ARRBcc: From:Jerrie Olson/ARRB Date:10/20/97 04:04:29 PMSubject:e-mailWhen I sent my e-mail to "ALL" this morning regarding the 60 Minutes tape I brought in, after lunch I got back a bunch of gobbledegook, which I printed and will place in your office. I called David to tell him (1) if he got a message that I was trying to send him something (my error message says it will keep trying until Saturday, October 25), to just ignore it because it isn't important, (2) I asked him if he was getting all of our staff e-mail when it was addressed to ALL (he said that he was not and was not aware that he is on our e-mail list - he doesn't mind if he is, but it was news to him). Is this some glitch confined to my computer? Has anyone else on our staff said anything about this problem?
