Subject: Re: Camera Test

Rollie, I'm sorry to inform you that in spite of our best efforts, our attempt to conduct a camera test came to naught. The test film somehow jammed the camera, and Tom Samoluk couldn't get it to run again. He also did not want to force anything and take a chance on breaking the camera. Therefore, when he hand-carries the camera back to our office on Tuesday, December 2, I will box it up along with the unused film and FEDEX it back to you that same afternoon, in time for your next test on December 8, 1997. I'm afraid that you will have to simulate the lighting conditions (sun angle vis-a-vis camera position and visual target) in Dealey Plaza on 11/22/63 in a lab. I believe that panning from left to right, at maximum telephoto with focus set on infinity, under lighting conditions that simulate the same sun angle on the day of the assassination, is an important test that should be run, for reasons we discussed. Again, I am sorry that attempting to simulate Zapruder's shooting conditions by filming in Dealey Plaza did not work out, but we very much appreciate all the work you put into the test plan you wrote up, and the care with which you packaged all of the materials. Your support was highly appreciated.

To: Horne @ jfk-arrb.govcc: From: zavadarc @ netacc.net @ INTERNET @ INTERLIANT Date: 11/24/97 08:32:34 PM CET Subject: Camera Test Doug; Hope all went well with the Dallas camera test. Saw in our local paper that there was a reenactment of a limo and a few motorcycles. Will be leaving for thanksgiving in Indiana tomorrow. Please ensure the return of the camera is on or after December 1. No rush - next camera test planned for week of Dec 8. HAPPY Thanksgiving. Rollie
