Subject: Re: December Congressional Letter

The White proposal time is good. Is he willing to come to our offices? I will have some text for you by tomorrow morning.

PMSubject: Re: December Congressional LetterThank you. I'll incorporate them into my draft.On the Robert White matter, I have just left a voice mail message for him proposing Thursday, January 8, 10:00 a.m. for our meeting with him at the ARRB office. I asked him to call back and confirm that time or propose an alternative for next week. I'll let you know what I hear.

To: Tom Samoluk/ARRB**bcc:** **From:** Bob Skwirot/ARRB**Date:** 12/29/97 01:08:01 **PMSubject:** Re: December Congressional LetterSorry that I was unable to respond to your request. I have been out of the office since December 17.The December meeting was fairly uneventful. The Board voted on 299 green CIA documents, the vast majority records from the CIA's sequestered collection. They range through the second half of the collection and are concentrated in boxes 44, 45 & 46. I believe that this batch brings us close to completion of the folders in the Sequestered collection which our staff had marked as priority one. The records designated priority 2 through 4 will still need to be processed, though probably not in the immediate future. These may account for possibly 30% or more of the entire hard copy Sequestered collection. There were a few HSCA records (less than a dozen) most of these from the HSCA Sequestered Collection. I believe that we will be getting only dribs and drabs from the HSCA from now on, as the bulk of these records have already been addressed. Finally, the CIA team sent 26 Ford library documents to the Board- all green issue documents. Most of these records are Rockefeller Commission related, though there are a couple from the Church Committee and the Warren Commission.Possibly the most interesting news from December was our meeting with John Pereira. He is aware of the keen interest that Congress has in the completion of our work. He has assured us that CIA has taken steps, such as adding reviewers and indexers, that he hopes will alleviate our concerns about CIA's ability to complete the project.Again, I apologize for not getting back to you sooner. If you have any questions please contact me.Thanks.Happy Holidays.
