Subject: Re: email - federal register

I hope you got my e-mails with the Fed. Reg. attached. As for the cc: envelopes, you don't need to send them to anyone's attention. I think if you just send it to the committees, they will open them and figure out the content from the "re:" line. I'm not sure about the addresses -- do you know if anyone in the office has a recent Congressional Directory that might have the committee addresses in it? Finally, I think regular mail will be fine for all of them. Thanks again. Laura

Subject: email - federal register

Body: could you please email me the document so I can put it on the disk? Also, can you tell me again to whose attention I should send the envelopes for the CC, and even for the addressee if appropriate? Also, should it go via courier or regular mail? thanks a lot, cathy
