Subject: Re: JFK

Dear Mr. Vignaroli: The Assassination Records Review Board is an independent federal agency created to oversee the identification and release of records related to the assassination of President John F. Kennedy. The law gives the Review Board the mandate and the authority to identify, secure, and make available all records related to the assassination of President Kennedy. About once every three weeks, the Review Board meets for a closed session, and the Board reviews still-classified documents and votes to release these records to the public. After the appropriate agencies are notified of the Board's decisions, and after administrative processing, the records are then transferred to the National Archives and Records Administration, where they are housed in the JFK Assassination Records Collection. To date, the Board has released tens of thousands of documents related to the assassination of President Kennedy that previously have not been available to the public. The Board has until September 30, 1998 to complete this mandate. If you are interested in receiving information and frequent updates about the activities of the Board, please let me know and I will add you to our mailing list (available by regular mail and e-mail). Sincerely, Eileen A. Sullivan
Press and Public Affairs Officer

I am very interested in any materials that will shed light on what really happened on 11/22/63. I am age 53, and have followed this event since the day it happened. I am of the opinion that there was a conspiracy, but it seems we will never know all of the facts surrounding this event. What really hurts is that I feel I was robbed of a great leader in spite of the well documented character defects of JFK. As an American Citizen, I feel our Government in conjunction with the major media has kept the truth from us. I feel the bottom line is if the Warren Report is the whole truth, and nothing but the truth, so help them God, there never was, and there is not now any reason to keep all of the facts hidden. I fear that it is probably too late now, and as time passes the persons involved will never be prosecuted. I am also interested in participating in the quest for the truth about this event, but do not know how to get involved. I have some ideas on how to keep and increase awareness and interest alive. Since this is an introductory correspondence, I hope it is not too much to ask you to respond. Looking forward to hearing from you.
