Hi. In an effort to avoid confusion, I'm hoping to clarify what you said in the meeting this morning. When you say that Michelle is the Associate Director for Research and Analysis but that reporting relationships remain the same -- could you clarify who is the immediate supervisor of the FBI team and its progress? (e.g. who gets draft letters to Carol? who decides about requests for additional information? etc...) Based on what you said in the meeting, I assume that I will still turn in my leave slips to you, but beyond that, is there any change in terms of who will oversee and supervise my work and the work of the FBI team?
