Subject: Re: washing machine blues

I forwarded a copy to Keith and I am sure he would be willing to help move the washer. I think he is tired of doing my laundry every weekend. I was trying to think of anything else Michael needs to do and I think he should ask him to put a real lock on the basement door that leads to the garage. Believe it or not, right now we have a metal hanger as our security measure. I have an interview on Tuesday the 7th so I could take off the rest of the day if that would be a good time for him to do repairs. Also do you think its our responsibility to do the gutters. I didn't think so but Keith noticed during the rainstorm last night that they were full. He said he would do them but I thought maybe we should check with Michael first before we send Keith up on the roof. Of course I also thought that since they probably haven't been cleaned out in five years another year wouldn't hurt them. Hope you have a good day and get outside to enjoy the weather.
