**Subject:** Re: Evidence of forward head movement presented by Liebler

The Review Board does not make judgements about materials given to it. All of our files, including donations from the public, will be transferred to the National Archives in September of 1998. If you would like to submit the information you have, I suggest you submit in writing to my attention at: Assassination Records Review Board 600 E Street Second Floor Washington, DC 20530 This information will then be transferred to the Archives and placed in the JFK Collection. Sincerely, Eileen Sullivan Press and Public Affairs

This mistake has been often repeated and though I may not be able to make the case for the correct way to measure (although I believe I do know how), I think I can easily make a case that there were considerations not taken into account in the measurements presented that would significantly affect them. What should I do? --Dave
