Subject: Re: Outside Email

Just so you know, I think a big part of this problem is the research community. I receive tons of e-mail from them, and this past month I was copied on a lot of really long messages back and forth between researchers. Want me to tell them to stop? (heh-heh).

PMSubject: Re: Outside EmailThis continues to be a problem and we are incurring abnormally large charges. As government employees using government equipment and resources you all need to be especially mindful of receiving outside e-mails. If you are receiving or sending a large number of messages (or large files) you MUST stop. If this causes anyone any distress or if you have questions, please see me. Thanks.

If you have friends that are sending large files, pictures or software to you at your board address please ask them not to. If you have any questions concerning the email policy please contact Tracy or myself. Thanks
