Subject: Re: Richard Case Nagell

The Review Board directed that the Secret Service file on Richard Case Nagell be transferred to the JFK Collection at NARA. It is there now, and open in full, with the exception of social security numbers. The Board is currently working to process the 1,500 page Army file on Mr. Nagell. Once the review is complete, that file will also be added to the Collection. We established contact with the executor of Mr. Nagell's estate after his death, and we conducted a search of his files. None of the documents that Mr. Nagell said would surface after his death have turned up. Eileen Sullivan
