Subject:	Re: CIA database
Body:	I stand corrected, I do indeed update disks with the latest version once it comes in.The problem is the CIA data is updated but it might not be reflected in the RIF in the fasttrack system.1. This means we may have printed out bad rifs.2. We should update our process so that we update all the rifs we are about to print from the latest CIA information just before we print the FDFs. This macro will take awhile to run so it would be an overnite process.Lets conf call about this monday afternoon. (after 2pm?)
