Subject: Re: June 12 Conference Call
Kermit,As I mentioned in my e-mail to the Board, the meeting will go forward. I perceive that it is entirely possible that we are approaching critical mass and that the Wednesday meeting may be the most important meeting in the Board's history. Then again, it may be like all of the other meetings. Obviously if it is an important meeting you should be there.I expect that one issue that will draw things to a head is whether I will have more information from USIP. I am hoping to get more information by Monday. I will give you my best assessment on Monday afternoon as to where I think things are headed for Wednesday. I think it would be very helpful if you could at least keep contingency plans open for coming on Wednesday.With regard to Zapruder and the press, "we" are not orchestrating it. I would be happy to tell you what I understand to be happening. If you get this message on Sunday, and would like to talk, you can either reach me in the office (where I am this morning) or at home (probably after 5:00) at 703-481-8196. I will be in and out of the office on Monday.Cheers, Jeremy
