Subject: Re: New Strategies in Printing Final Determination Forms
There is no problem bringing a laptop in and out of the Hoover Building. Chet and I discussed the options of trying to use an FBI computer, or one of our desktops and settled on the laptop as the easiest solution. We can of course discuss further if need be.

Subject: Re: New Strategies in Printing Final Determination Forms
Some questions: (a) will the FBI allow (for security reasons) a laptop to go in and out of the building; (b) is there any way that an FBI computer could be used; (c) do we have an extra desktop that could/should be moved to the FBI? If these questions point to the conclusion that a laptop should be used -- by all means -- let's do it.

Subject: New Strategies in Printing Final Determination Forms
I would like to have sporadic but regular access to a laptop computer to print final determination forms over at the Hoover Building. This would prevent us from having to lug all of the records over here before they are delivered to NARA.
