If WinZip will interfere with the machines (like it did on mine) I can go uninstall it.Done2)Eileen needs access to t:\ ASAP. I know that you kind of like to keep that function to yourself, but if you want to give me some quickie instructions on how to do it (or tell me where to look it up), I could take care of it myself. Otherwise, I assume that you'll be in on Sunday and could do it then.Until next time...
