The server was down and I couldn't get in.To:Jeremy Gunn/ARRBcc:Eileen Sullivan/ARRB From:Douglas Horne/ARRB Date:07/16/98 10:53:07 AMSubject:Friendly ReminderPlease complete your modification of the introductory wording on the Master Medical Exhibit List today if at all possible. As I see it, Eileen cannot begin writing the press advisory and we cannot implement the logistics of the ordering process until you finish deciding what changes you wish to make to my proposed wording.I still hold that simplicity is a virtue. Under no circumstances should we distribute two different versions of this list to the public. If someone orders a transcript, they should only get the version of the Exhibit List you are looking at--the one which explains what they will receive if they order "item 13" on the order list. If we were to provide the "clean," non-annotated "deposition version" it would be misleading because it could imply to many readers that everything on the list is available.The file name is: t:\medical\mastexh.03. Thanks.
