Subject: Re: Indigo Films Request
Hi Nan. Thanks for the welcome back message. I had a very good, relaxing vacation, which should rejuvenate me enough to get through these last hectic 7 weeks (yikes).As I write this, there is no new information about the status of the Zapruder film. We feel strongly that this issue be resolved asap, however we are not involved in the negotiations. All I can say is that we hope to know something soon.Clay Shaw trial: What I have here are the grand jury transcripts. Copies of these transcripts will be transferred to NARA soon. We anticipated that they would be transferred earlier, however we are short-staffed these days. They are "open to the public". The investigative files that belonged to Jim Garrison's office have not yet been transferred to the JFK Collection.I can certainly add you to the list of recipients of our press releases. I think the best way for you to receive them is electronically. I will add you to the "e-mail" list, unless you prefer to receive this information some other way.Why don't you give a ring when you have a minute and we can discuss these issues at greater length.Eileen
