Subject: Re: file plan database
I exported the database to a WordPerfect file. That's all he needs...To: Chet Rhodes/ARRB, Peter Voth/ARRBcc: guest1/ARRB From: Tracy Shycoff/ARRB Date: 08/17/98 03:41:21 PMSubject: file plan databases it possible to replicate the file plan database to a separate database for Matt to use in guest1? He will need to be making file folder lists as things are being transferred to NARA and the easiest way would be to give him the file plan as a separate database so that he can change the data to match the boxes without changing our file plan database.If this doesn't make sense or you need more info, please let me know. Otherwise, the sooner this can be done the better.Thanks.
