Subject: Re: Disks to Editor
Good question, but I don't know the answer. We can always use two disks.To: Laura Denk/ARRBcc:
From: Peter Voth/ARRB Date: 08/31/98 02:14:00 PMSubject: Disks to EditorKevin told me that some more
final report chapters should be converted to text-only format and sent to the editor. I remember that last
time I saved the stuff for the editor as both ASCII text and rich text. I was wondering if you know which one he
used, so I don't have to save it twice (which may not fit on one disk...I think the space situation was a bit dicey
last time).Thanks
