your suggested corrections to Studies 1-4 and note.Thanks for all the effort you put into improving my drafts.
I agree withall changes except that I shall discuss parameters of reversal printingin Study 3 instead of your
suggestion in Part 2 of Study 1 - I'll pointthe reader to Study 3.There was a big surprise for me in the copies
you provided of the Warrenreport exhibits - I had never seen them in good quality before. Byproperly
selecting the exhibits perforation areas, I can assemble all ofthe manufacturing edge markings to identify the
Zapruder original! Ibelieve this reference is important and I would like to add it to Study 1as an attachment.
Body: Do you agree? Regards, Rollie
