| **Subject:** | Re: for Sunday |
| **Body:** | Excel is on the computer and I copied over eform.  You have a second Eforms icon on your screen in the middle, thats the local one.  Can you check and make sure the forms are in that copy.  Do not use it yet, we will copy everything again on Friday to make sure we have the latest info.I took the serial number off that monitor so you are all set. |
