

## MEMORANDUM

July 26, 1996

To: Christopher Barger  
From: Robert Skwirot  
Subject: Intern Project

This project involves documents which contain the name of an individual who coordinated the CIA's investigation of Oswald immediately after the assassination of JFK. Because of this his name appears frequently throughout the collection of documents which relate to the assassination. Initially, when the Review Board considered the postponement of this individual's name, they voted to postpone his true name, substitute his pseudonym, and reconsider the documents in May of this year. In May, the Board decided to continue the postponement and substitution of his pseudonym, and to release his true name in May of 2001 or at his death, whichever comes first.

In this project, the interns will attach to the documents at the National Archives the Final Determination Forms which record the results of this May determination. It may also require the interns to search through the boxes at NARA to identify the records and/or to remove the old Final Determination Forms from the documents. Martha Murphy at NARA will determine the exact requirements.

I have a list of the documents, a copy of which I have sent to Martha. I will leave that and the stack of Final Determination Forms on your desk. As we discussed, please call Martha on Monday to discuss the specifics such as the day you will go and the nuts and bolts of the process. If you have any questions, do not hesitate to call me at the Agency on Monday.

Thanks.
