

## 5. Oswald Office of Security File

As a result of an ARRB staff request for additional information and records CIA located an Office of Security file for Oswald. This 7 volume file, of which have been located, contains 2 volumes of press clippings, third agency material on Oswald, a copy of Oswald's address book and Marina Oswald's INS file. The Office of Security file was not previously part of the JFK collection. In the upcoming months CIA will begin to review and process these materials.
