

*General question list for members of the 112th INTC*

1. What are your recollections of November 22, 1963? Specifically, what was the reaction of the commanding staff when they received word of the shooting? Were there any out of the ordinary activities (i.e., was anyone sent to the motorcade route or Dealey Plaza, did the unit do anything or receive any orders that were unusual?)
2. To your recollection, were there any members of the unit who had been *assigned* to Dealey Plaza that day? If so, do you remember who they were? Were any other members of the unit in Dealey Plaza who were not on duty?
3. To your knowledge, did the 316th detachment offer assistance to the Secret Service for the November Texas trip? Was there any talk about this offer having been made or turned down?
4. Was there any gossip or scuttlebutt regarding Sgt. James Powell's having been detained in the Texas School Book Depository? What was the reaction to his detention?
5. To your recollection, was there *anything* at all unusual about either the period preceding the President's trip, or the aftermath of the shooting?
6. To the best of your recollection, was it standard procedure for the 112th INTC or 316th detachment to provide security for Presidential visits, in any form? Did the 112th provide background reports on possible security risks to the Secret Service? Would it have been normal to provide other types of security, such as crowd control, surveillance, doing advance security on a motorcade route, or providing physical security for the President? Was it unusual or abnormal in any way that on November 22, 1963, the 112th apparently did not provide supplementary Presidential security?
7. Do you recollect an alleged theft of weapons from a Texas Armory shortly before the assassination?
8. Did the 112th have a file on Lee Harvey Oswald? Who was responsible for collecting the information, creating, and updating the file?
9. Do you recall a file on Jack Ruby as well? Do you recall the reason any such file might have been kept?
10. How much liaison was there with other local branches of the intelligence community (i.e., FBI, ONI, DPD, OSI, ATF)? Who was responsible for this liaison? Do you recall the names of any members of those organizations whom you dealt with on a regular basis?

11. To the best of your knowledge, was the 112th/316th ever involved in or asked to participate in any post-assassination investigation either of the shooting of JFK or of Lee Harvey Oswald?
12. Do you recall ever having seen any records or reports regarding this subject or anyone or thing related to it while at the 112th?
13. To your knowledge, were members of the 112th/316th ever trained in protective VIP security as a part of their duties at the 112th/316th?
