Subject: Error in October 24 meeting

There was a clerical error in the consent agenda of the October 24, 1995 Board meeting. Document 104-10015-10440 was mistakenly placed on the green consent agenda, and instead should have been placed on the yellow agenda. The document is not opened in full. In accordance with stated Board policy regarding the issues postponed in this document, the document will now be listed as "postponed in part," with the next review date being December 13, 1995.

The appropriate changes in the Board minutes and Final Determination Notices have been made. This memo is intended to duly note the error and corresponding changes for the permanent record.
