Subject: Wegman & Garrison Boxes

I have completed my review of the boxes of material donated to the National Archives by Cynthia Wegman and Lyon Garrison.

Attached is a listing of some of the material found in each box. I did not catalogue the contents of each box. The list of material is simply items I noted for you so you would have some idea of what kind of material we received. If there was nothing of interest in a folder sometimes I simply noted that a folder on a particular person existed. Throughout the boxes there were a lot of duplicate material (in each collection respectively). I tried not to list an item more than once if it was found in multiple boxes of the same collection.
